

Martinez Missionary Mail (4th Quarter 2022)

Chuck & Robin Martinez, SGSP Mission Directors- Guatemala

Mountain Outreach- Palistina

Funny how many hats you can wear in a day. As missionaries you tend to lose count and it is something that comes with territory.

Medical missions in outlying territories are a vital part of ministry to the people. Ministry to the physical body will almost always lead to spiritual healing as well.

From this rural location the young and old, men, women, and children, and even the curious are drawn by the compassion extended through medical outreaches. Many will come to know God's saving grace through Jesus Christ.

Children's Day Outreach

The Day of the Child was established as a holiday in 1990. Government and non-gov organizations look to provide the kids of Guatemala with a day of food, fun, and gifts. In this hidden away, poor neighborhood, SGSP joins with a small local church to bring one additional special gift.....The Gospel of Jesus Christ.

Food...fun... evangelism!

Families in need

Local church, ministries, and missionaries are the feet (& wings) of missions. SGSP/C&R partner with many organizations that reach the people of Guatemala with the Gospel and compassion. While in this season of gift-giving, the Gospel of Jesus Christ is shared one-on-one from our family to the least of these.
